3. (Confidential - GLC) J. Sourwine, Chief Counsel, Senate Internal Security Subcommittee, called to say he had been very impressed with the report on subversion in Africa which we left with David Martin, Subcommittee staff, and said he would like to see the Subcommittee publish it. He feels it would be necessary, however, to have a witness who is knowledgeable on the situation attest to the credibility of this report so that the Subcommittee could justify publishing it. Sourwine would like to have somebody from the Agency do this, but when I told him I thought this was out of the question he asked if we would have any suggestion as to some other credible individual who could serve this purpose. I told him I would check and call him back.

5. (Unclassified - LLM) Called Mr. William Phillips, Staff Director of the Foreign Operations and Government Information Subcommittee, House Government Operations Committee, and told him that the initial refusal for access to information under the so-called Freedom of Information Law had been sustained on administrative appeal. This closes out Chairman Moorhead's new request for this information which was based on the Agency's response of 30 September 1971 to the questionnaire which he had sent to all Government agencies.

In response to my question, Phillips said they are having some problems in dealing with all the information they had received but that they intend to commence their hearings on 6 March which would probably result in recommending further legislation.
